SUMMARY

Frontend Developer with professional experience building **React** and **TypeScript** applications, complemented by hands-on experience with **Next.js** projects. Experienced in building reusable UI components, refactoring code, integrating **APIs**, and working with testing and modern frontend tooling. Enjoy working in collaborative teams and continuously developing my technical skills.

Fluent in English and Dutch.

WORK EXPERIENCE

TraderSetup | Frontend Developer | [LINK](#)

October 2024 - present

- Built and maintained a cross-platform trading journal application for web, iOS and Android using **React**, **TypeScript** and **Vite**.
- Developed reusable UI components in **Storybook** to improve consistency and reduce duplication across features.
- Delivered data-driven features including a rich-text editor, note management system, and reporting tools with **REST API integration**.
- Managed application state using **Redux Toolkit** for predictable and scalable data flow.
- Supported application reliability through **Jest**, **code reviews**, **linting**, and **CI/CD** workflows in **GitLab**.
- Implemented internationalization with **i18next**, supporting multiple languages, improving **accessibility** for a broader user base.

Worked on multiple web applications using React and Next.js, including educational platforms and marketing websites.

- Developed server-rendered and statically generated features with **Next.js App Router**, improving **SEO** and performance.
- Built reusable **UI libraries** and shared **npm** modules.
- Worked with **Tanstack Query** and **RTK Query** for server state management, caching, and optimistic updates.
- Implemented authentication flows and routing strategies, contributing to application architecture in Next.js projects.

SKILLS

- | | |
|--|--|
| • React, Next.js, TypeScript, JavaScript | • React Hook Form, Zod |
| • Redux Toolkit, RTK Query, Tanstack Query | • Git, GitHub, GitLab, CI/CD, Storybook, Figma |
| • Tailwind, Radix UI, Shadcn, SCCS | • Jest, i18next, REST API |
